PROFILE SUMMARY

Computer Science Engineering undergraduate with hands-on experience in frontend development, AI-based projects, and real-world internship exposure. Skilled in Python, React, OpenCV, and modern web technologies. Completed a Front-End Development internship at Cognifyz Technologies, demonstrating dedication and strong attention to detail. Eager to grow as a software developer through practical project experience.

EXPERIENCE

Front-End Development Intern — Cognifyz Technologies Jan 2026 – Feb 2026

I completed a one-month **Front-End Development Internship** (Intern ID: CTI/A1/C295733), gaining hands-on experience in real-world frontend tasks while demonstrating strong communication, coordination, and eagerness to learn.

PROJECTS

"AI Based Vehicle Detection System" | Technologies: Python, OpenCV, YOLO

- AI-based system that detects and counts vehicles at checkpoints in real time to monitor traffic flow and improve security.
- Implemented using YOLO object detection with live video stream processing via OpenCV.

"Hit-the-Dot" | Technologies: React, HTML, CSS, JavaScript

- Built an interactive accuracy testing game that measures user reflexes and precision through dynamic gameplay.
- Designed responsive UI using React with smooth animations and real-time score tracking.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++

Web Development: HTML, CSS, JavaScript, React

Data Analysis & Visualization: Pandas, NumPy, Seaborn

Databases: MongoDB, SQL

Cloud & Dev Tools: Git, AWS, Jupyter Notebooks

Other: Problem Solving, Data Structures, OpenCV, YOLO

CERTIFICATIONS

TCS iON — TCS iON Career Edge: Young Professional

Orionshift Pvt — Genius Full-Stack Development Bootcamp

Amphisoft — C Programming

EduNet Foundation — Green Skills and Artificial Intelligence (Skills4Future Program)

AWARDS & ACHIEVEMENTS

Rajya Puraskar Award — Bharat Scouts and Guides | State-level award for leadership, discipline, and community service.
